Price List
1913

NEW HAVEN, MO.

Terms, Conditions and Directions

Terms Invariably cash, unless otherwise agreed upon. All orders to be sent C. O. D. must be accompanied with one-fourth the amount in cash. Remit by Money Order, Registered Letter or Bank Draft.

Order Early It is important that you order early. For the benefit of customers who wish to order early, but who do not care to spare all of the money when the order is sent, we will accept such early orders if 10 per cent of the amount is sent with order. We will reserve the stock for you. Balance to be sent when you order the stock shipped.

Directions for Ordering Write name and address plainly. Always state distinctly the sizes and grades of stock ordered as per the grades given in this list. When named varieties cannot be furnished, we reserve the right to substitute such varieties as will fill the season as near as possible, unless prohibited in the order. Persons unacquainted with the different varieties will generally get a much better selection by leaving the assortment to us. Keep a correct copy of the order, so that when the stock arrives you will know exactly whether you get what you have ordered. If we make mistakes, they are accidental, and we wish to right them.

Free Freight or Express On all orders over \$10.00, accompanied by full remittance, we will prepay the Freight or Express charges to your R. R. Station, if east of Denver, Colo., and El Paso, Tex. Will prepay \$1.15 per 100 pounds to all points west of Denver and El Paso.

On orders amounting to \$25 or more at single, 10 or 100 rates, will pay Freight to any point in the United States.

The Prices The prices are for the quantities named, but five, fifty and five hundred will be supplied at ten, hundred and thousand rates, respectively—i. e., five at half the price of ten; fifty at half the price of one hundred, and so on.

Packing All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and to our customers' best interest. Everything is correctly labeled.

Our Guarantee The fact that nurserymen, planters and fruit-growers of the country have ordered of us year after year, is as good a guarantee as can be given by any other nursery of over forty years' standing. But if any mistakes occur we will cheerfully rectify them.

True to Name We use the greatest care possible to have our stock true to name, and should any prove not true, we stand ready to replace it free of charge, or to refund the purchase money, but do not hold ourselves liable for any greater amount than the first cost of stock that may prove not true. All our shipments of trees will be accompanied by Certificate of Inspection of the State or Government Entomologist. Good stock, true to name, sold direct to the planter at reasonable prices is our aim.

Our Location Our Location is the very best for producing well ripened stock with splendid roots. Our facilities for prompt shipments are first-class and we have special low Express Rates.

Remember that we pay the Freight or Express Charges on all orders amounting to over \$10.00 as above and guarantee safe arrival of shipments.

We solicit correspondence and personal inspection of our stock, confident that it will compare favorably with the best.

Remarks on Varieties, Sizes, Etc.

We wish to say that the **small size trees** are strictly first-class and well rooted, and by many will be preferred to the larger sizes.

So many ask, "What should I plant in my locality?" that we will here name a few of the popular and profitable sorts for general planting:

Jonathan, Mammoth Black Twig, Gano, York Imperial, Winter Banana, Stayman's Winesap, Rome Beauty, Winesap, Grimes' Golden, Maiden Blush, Yellow Transparent and Wealthy. This is our Commercial List. Others would add, perhaps, **Ben Davis, Arkansas Black, Missouri Pip-
pin, Duchess of Oldenburg, Spitzenberg, etc.** All of the above are good, profitable sorts, both for home use and market.

If you want to market your fruit, avoid planting too many early sorts. **Elberta, Salway, Carman, Captain Ede, Matthews' Beauty, Crosby, Heath Cling, Chair's Choice, Gold Dust, Foster and Crawford** are all profitable for market. Should early sorts be desired, **Mayflower, Greensboro, Alexander and Sneed** are what you should plant. If for home use, plant general assortment, including above, for a succession. The peach tree should have the shoots and branches shortened every year or two. The land should be kept in a high state of cultivation.

The fact is more and more apparent that **Kieffer and Garber** will stay in the lead for profit in the Mississippi Valley States. **Duchess, Bart-
lett, Winter Nellis and Anjou** can be profitably planted further west. **The Koonee** is the best early pear.

Early Richmond, Dyehouse, Montmorency, Wragg (Sour), Governor Wood, Elton and Magann (Sweet), do very well and are profitable. For general planting we do not recommend the English Morello.

Wild Goose (Native), Common Damson, Shrop Damson, Germa Prune (European), Abundance, Wickson and Burbank (Japanese), are all good bearers and profitable. We consider the **Abundance, Wickson and Burbank** the best of the well-known Japanese sorts. Try some **Black Beauty, the best new Japan sort.**

When the trees are heavily laden, the fruit should be thinned when about one-third grown, else the fruit will be poor and the trees injured. The necessity for thinning was fully demonstrated during the dry summer of 1901.

Our Apple, Pear, Peach, Plum and Cherry trees are all grown on "whole roots." Our Apples are grafted and planted so that the scion also roots. Don't pay extra prices for "trade marks." We give our customers the **very best**, and we don't ask **two prices**. A trial order will convince you. In planting our trees you set the best that experience and skilled labor can produce.

Our shipments for Spring and Fall, 1912, consisted of **over one million fruit trees**, which went to thirty-eight states and territories. A total of about forty furniture car loads. We are now growing on our premises over two million fruit trees, all clean and healthy; nothing over two years from bud or graft. We do not claim you should plant "Bagby-grown or none at all," but we do want to impress on you the fact that there are **NONE BETTER.**

APPLE TREES

Our apples are all grown on Missouri River upland, on well branched whole roots, smooth, clean and well grown in every respect. No better trees can be found anywhere.

Summer Apples

Benoni—One of the best summer sorts.

Carolina Red June (Red June)—Medium size; red, flesh white. Last of June.

Duchess of Oldenburg (Russian)—Medium to large size; skin yellow; streaked with red, somewhat blushed. Productive. August.

Early Harvest—Medium to large, bright straw color; flesh white. Tree moderately vigorous and productive; one of the best. First of July.

Liveland Raspberry—One of the best early sorts.

Red Astrachan—Large, crimson, handsome; rather acid, but good and crisp; profitable. Early.

Yellow Transparent—This valuable apple is said to be of Russian origin. However, we find it to be a very valuable addition to our list. Fruit medium to large; nearly white.

Maiden's Blush—Rather large, evenly shaded red cheek or blush on a clear pale yellow ground; bears large crops. August and September.

Rambo—Medium; streaked with dull red and somewhat dotted, productive and vigorous. September to November.

Rome Beauty—Large, yellow, shaded with red; tender, juicy, sub-acid. October to February.

Wealthy—An apple of fine appearance and quality, an early and profuse bearer; a good market apple of its season. Tree hardy; in size and beauty it equals Baldwin, and is a better dessert apple. Ripens here in August. Winter apple north.

Fall Apples

Apples

Block of Two-Year-Old Apples, New Haven Nurseries

Arkansas Black—Origin, Bentonville, Arkansas. The tree is a beautiful upright grower, young wood very dark. Fruit medium to large; fine flavor; beautiful dark color, almost black; flesh yellowish, slightly sub-acid, crisp. One of the best cooking apples; vigorous. January to May.

Baldwin—Large, rounded; deep bright red over yellow ground, few russet dots, very productive. A great market variety; a grand apple in the lower mountain ranges. One of the best and most popular winter apples. November to February.

Ben Davis—Fruit medium to large, flesh white; an excellent variety. Tree very hardy, a free grower, coming into bearing early and very productive; very popular. December to March.

Black Ben Davis—Ben Davis type. Dark red color.

Gravenstein—Red color; an old-time favorite.

Grimes' Golden—Medium to large; rich golden yellow; flesh tender, mild, sub-acid. Should be gathered before turning yellow and put in a cool place, and often keeps until February. For canning purposes it nearly equals the pear. Tree hardy, vigorous; an early and abundant bearer. November to January.

Huntsman's Favorite—Originated in Johnson County, Missouri. Very large; golden yellow, with bright red cheek; nearly sweet, fine flavor, very aromatic. One of the best and highest selling market apples; tree very healthy and moderately productive. November to January.

Gano—This apple was introduced to the public in 1886. Tree very hardy; it bears very young. Fruit bright red on yellow ground, no stripes; large, oblong, tapering to the eye; surface smooth, takes a very high polish, making it valuable as a stand fruit; flesh white. An early, annual and prolific bearer.

Ingram—A seedling of the old Janet. Originated near Springfield, Mo. Its habits are similar to the Janet, but the tree is a more upright grower and the apple is not subject to crack. Size medium; striped bright red in the sun; flesh greenish yellow, agreeable, sub-acid flavor; a good keeper. Tree hardy, late bloomer and very productive.

Janet (Rawles' Janet)—Medium, roundish, greenish yellow, striped with red; rich and juicy, one of the best and longest keepers in the South and Southwest; valuable for its high quality and its late blooming; moderate grower. January to March.

Apples

Starting to Bud a Block of Stocks

Winter Apples

King of Tompkins County—Showy; good quality. Not productive in all sections.

Jonathan—Fruit medium, roundish; skin yellow, nearly covered with dark or lively red; moderate grower. One of the best apples for home use or market. October to January.

Mammoth Black Twig—Supposed to be a seedling of the Winesap, but tree a better grower in the nursery and fruit much larger; or, in other words, an improved Winesap. Tree a fine, upright, spreading grower.

Missouri Pippin—Large, oblong, bright red, with numerous gray dots; very handsome, fair quality, an early and very abundant bearer, and very profitable. December to March.

Newtown Pippin—An old variety. Our stock is from the best bearing orchards in Oregon. Identical with Albermarle Pippin.

Northwestern Greening—A Wisconsin seedling of great promise, having taken first prize at their state societies. Tree a good grower and hardy. Fruit yellow, smooth, rich, of good size, resembling Grimes' Golden in shape and color. Good quality. November to December.

Stayman Winesap—Not quite so well colored as Winesap, but larger; a good keeper. Valuable for market or home use.

Spitzenberg—A popular sort in some sections. Our stock is from bearing orchards in the Northwest.

Vandevere—An old variety, not much grown, but for home orchards advise a few trees, for excellent quality of fruit.

Winesap—Medium, dark red; a favorite market variety in the West. November and December.

Wolf River—Very large and handsome; flesh whitish, sub-acid, a good bearer. November and December.

Winter Banana—Fancy market fruit; large, pale yellow, pink blush. Tree a strong grower.

Yellow Bellflower—An old, popular sort. Bright yellow, bell shape.

York Imperial—This apple has been gaining favor, and is being planted largely in the West as a commercial sort. Large.

CRAB APPLES—Hyslop, Whitney, Transcendent, at the same price as other apples.

Peaches

The Outside Row on Block of 250,000 Elberta, September, 1911, New Haven Nurseries

We Set Over One Million Buds Summer 1912.

We are the largest growers of Peach Trees in the West and can supply in any quantity—the best up-to-date market sorts. Our Peaches are stocky, nicely headed, smooth, straight bodies, well rooted, on healthy peach stocks and free from any disease. Remember this in comparing prices with other establishments. **Freight Paid to Your Station**, on conditions mentioned. Over 250,000 sold and shipped to other nurserymen 1912.

	Each	10	100	1000
2 to 3 ft., well rooted, 1 year from bud..	\$0.10	\$0.90	\$ 7.00	\$ 50.00

First class, 3½ to 5 ft., nicely headed..	.15	1.40	12.00	100.00
Extra select, 4½ to 6 ft.....	.20	1.60	14.00	130.00

Alexander—Large size, handsome and regular in form, with deep maroon shade; adheres to the stone; should remain on the tree until fully ripe. White flesh. Last of June.

Carman—White flesh, large, with beautiful mottled red cheek. A valuable home or market sort. Season about ten days later than Alexander and about two weeks earlier than Elberta. Our stock came from the originator.

Champion—Originated at Nokomis, Illinois. Fruit large, beautiful in appearance; flavor delicious, sweet, rich and juicy; skin creamy white, with red cheek; free-stone. August 15th.

Chinese Cling—Most popular Southern peach, oblong, creamy skin, with faint flashes of red. August.

Crawford's Early—This beautiful yellow peach is highly esteemed for market purposes. Fruit very large, oblong, skin yellow, with fine red cheek; flesh yellow, juicy, sweet and excellent, free. Last of July. Would not advise planting this sort north of Central Missouri.

Crawford's Late—Fruit of the largest size; skin yellow, or greenish yellow, with dull red cheek; flesh yellow; productive; one of the best free-stones. August and September.

Chair's Choice—Large, late, yellow. One of the best for home or market planting.

BS

Grading Peach Trees, Showing Ungraded Elberta. Corner of Grading Shed, New Haven Nurseries

Peach Trees

Crosby—If you want peaches every year, try some Crosby. It is medium size, rich orange yellow, splashed with red and of best quality. Mid-season.

Capt. Ede—Originated on farm of Capt. Ede in Illinois. Is a splendid yellow free-stone variety. In appearance very much like Elberta, which it equals in every way, except not quite so large, and is better quality.

Elberta—A Georgia cross between Crawford and Chinese Cling; very large; well colored all things considered, the finest yellow free-stone in cultivation; no one can go amiss by planting it; fruit perfectly free from rot, and one of the most successful shipping varieties. August 20th.

Emma—A popular new sort of Southern origin.

Family Favorite—Free, seedling of Chinese Cling, of better color, large, clear, waxen complexion, with blush; prolific, firm, valuable for shipping, canning or drying. Last of July.

Foster—Same season as Crawford's Early, but much more productive; yellow, with red cheek; quality best; good size.

Fitzgerald—Of Crawford type. A seedling found at Oakville, Ont., where it stands the winter perfectly; is about as hardy as Elberta; quality first class; yellow free-stone, and we recommend it.

Gold Dust—If you want the very best canning variety, this is the peach. Large yellow cling-stone; juicy, productive and of best quality. Season, September 1st to 10th.

Greensboro—Large, oblong, greenish yellow shaded red, flesh creamy; among the best; tree vigorous, prolific; grown largely in Georgia and the South for Northern markets. Ripe June 1st to 10th.

Henrietta (Levy)—Magnificent yellow cling, large size, slightly covered with bright crimson; hardy, productive; always commands fancy prices. September 25th.

Heath Cling—Large, oblong, creamy white, slightly tinged with red in the sun; very tender, juicy, melting; very rich and luscious. Sept. 15th.

Mountain Rose—Large, red; flesh white, rich, juicy, excellent. Season, August 1st to 10th.

Peaches

Peach Seed Planter in Operation, Planting 30 to 40 Bushels, 3 to 4 Acres, Per Day

NEW HAVEN
NURSERIES
NEW HAVEN
MO.

Miller Cling Peach—An extra large cling-stone. Hardy, productive and of best quality. Earlier than Heath Cling, but larger and better color.

Matthews Beauty—Originated in Georgia. A late yellow free-stone. Fully as large as Elberta; two weeks later. Advise extensive planting.

Mayflower—A beautiful “red-all-over” peach; handsome and of splendid quality. Extremely early; tree hardy and healthy.

Muir—A medium yellow free-stone. Hardy; productive. September.

Old Mixon Cling—Large, with red cheek; juicy, rich and high flavored; one of the best cling-stone peaches. White flesh. August 15th.

Old Mixon Free—Large, white flesh, with deep red cheek; rich and good; one of the best. August.

Phillips Cling—A fine, medium-sized yellow cling. Exceedingly rich. Very popular in California. Small pit.

Ringgold Cling—Much larger than Heath, in every way an improvement on that popular kind. September.

Salway—Fruit large, yellow, with red cheek; flesh yellow, a late showy market sort. Free-stone. September 15th. Hardy.

Smock Free—Fruit large, skin orange yellow, mottled with red; a good market sort. September 15th. Hardy.

Sneed—Ripens earlier than Alexander, and belongs to an entirely different type; it is very distinct in tree and fruit, belonging to the Chinese Cling type; size medium; hardy.

Stump the World—Very large; roundish; skin white, with a bright red cheek; flesh white; free-stone. End of August.

Thurber—A seedling of the Chinese Cling, which it resembles in size and color; skin white, with light crimson mottlings; free-stone. August.

Triumph—The earliest yellow peach known; productive, hardy and profitable for market. Originated in Georgia. Hardy.

Wonderful—Color rich yellow; flesh yellow, highly flavored; firm. Ripens in September. Very similar to Smock.

Wheatland—Large, roundish, skin golden yellow, shaded with crimson on the sunny side; flesh yellow and of fine quality; tree vigorous. August and September. Just ahead of Elberta.

Abundance—A hardy, productive Japanese sort. Large, purplish red; quality very best. Season, early in July.

Black Beauty (New)—The best Japan sort we have ever grown. Large, very dark purple, almost black. Persimmon shape. Quality and size of Abundance. 4 to 6 ft. trees, 50 cents each.

Burbank—Large, varying less in size than the other Japanese plums; it is nearly globular; clear, cherry-red, with a thin lilac bloom; flesh deep yellow, firm and meaty; tree vigorous and productive.

Common Damson—Well-known and very productive. Season, September.

German Prune—Very profitable, and will succeed wherever Common Damson can be grown. Very large. We consider it the best of European sorts. August and September.

Ogon—It is large, nearly round; of the brightest golden yellow; flesh firm, sweet, rich and dry; ripens a little earlier than Abundance or Botan. Free-stone.

Red June—One of the largest Japanese varieties, ripening before Abundance. Tree upright, vigorous, hardy.

Shropshire Damson—A plum of fine quality, sprightly. In market it has commanded nearly double the price of the Common Damson, and is enormously productive. Last of September.

Wild Goose—Large, rich, crimson, beautiful flesh, soft, melting, delicious, with a full, fruity flavor. Tree a strong grower, prolific.

Wickson—We regard this as one of the best of the late ripening Japan sorts. Readily parts from the seed. Extra large. Season, August.

Pears

Block of One-Year Standard Pear, New Haven Nurseries

Our Pears are especially clean, smooth and well rooted, grown on XX French imported stocks.

For Kieffer, Koonce and Garber in quantities of 300 or more, write us for special low prices.

Koonce—The handsomest, best and most valuable; very early pear; tree vigorous, upright grower, free from blight; magnificent foliage, which it retains late in the season; fruit medium to large; skin yellow, does not rot at the core, juicy, spicy, sweet and delicious quality. An excellent shipper.

Bartlett—Large, skin very thin, clear lemon-yellow with soft blush on the sunny side; flesh white, buttery, very juicy and highly flavored. The best summer pear in existence for quality.

Clapp's Favorite—Large, pale lemon-yellow, marbled with crimson on sunny side and thickly sprinkled with brown dots; flesh finely grained and melting, with a rich vinous flavor. August.

Anjou—One of the most delicious late fall pears; juicy and of excellent quality.

Duchess d'Angouleme—Very large, greenish-yellow; sometimes a little russeted; makes a beautiful tree. One of the best. October and November.

Garber—Originated in Pennsylvania 24 years ago, is large and beautiful, bright yellow, with red; juicy and good; delicious canned. Ready to pick with Le Conte, or a few days later, and much better, not only in fruit, but in hardiness and health of trees.

Flemish Beauty—Large, beautiful, juicy, melting, rich and fine; strong grower and good bearer; hardy everywhere. September and October.

Kieffer's Hybrid—Tree a remarkable grower, with so vigorous a constitution that it rarely blights. Fruit of fine size, rich color and good quality. Brings high prices in competition with other varieties. Best when picked at maturity and house-ripened. October and November.

Baldwin—A new variety of great promise, hardy and said to be productive.

Dyehouse—Very early and sure bearer; ripens before Early Richmond; but not quite as productive. May.

English Morello—Medium to large; blackish red; acid; juicy. Very productive. Short lived. July.

Early Richmond—(Kentish, Virginian or Early May)—Medium size, red; melting, juicy, sprightly, acid flavor. This is one of the most valuable and popular of the acid cherries, and is exceedingly productive. First of June.

Gov. Wood—One of the best cherries; very large, light red, juicy, rich and delicious. Tree healthy and a great bearer. May and June.

Late Duke—Fruit similar to May Duke, but later and not so sweet.

Montmorency—No doubt one of the finest acid cherries; tree very hardy and an immense bearer; commences to fruit while young and is loaded annually thereafter with fine crops; fruit of good size, fine flavor, and of bright, clear, shining red; valuable everywhere, especially for northern latitudes; larger than Early Richmond, and fully ten days later. End of June.

Magann Cherry—A new sweet cherry. Fruit large, almost black when fully ripe, growing in large clusters. It will pay you to include some of these in your order for other stock.

Ostheimer—Largest size; very dark, flesh tender, juicy. Late June.

Wragg—Originated in Iowa. Medium to large in size, long stem, dark purple when fully ripe. A variety well adapted for the high altitude and prairie regions of the Northwest.

15 feet apart each way.....		205	

Rule—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill; which, divided into the number of square feet in an acre (43,560) will give the number of plants or trees to the acre.

Peach Trees in Different Sizes as Graded for shipment. Note Splendid Root System

About Agents

We are not employing traveling salesmen to solicit orders, but we shall be pleased to have you get up a club among your neighbors, and on club orders amounting to \$25.00 or more, at single, ten or hundred rates, we allow you 10 per cent additional in stock. We put up each order in a separate package, so that upon receipt of the goods you have only to hand out the different lots as ordered. Many of our best customers buy in larger quantities at the lowest rates and distribute in lots as ordered by their neighbors.

We also desire to sell to nurserymen and dealers who buy to sell again, and special prices will be made on carloads or larger quantities than indicated in this list.

References

Some of our correspondents have asked us to give them bank references, and we hereby comply, and refer to local banks and to the commercial agencies. We do our local business with Farmers' Savings Bank, New Haven, Mo.

Testimonials

J. J. Britt, Benton County, Ark.: "The 10,000 peach trees arrived a week ago. All in good condition and a very fine lot of little trees. They look to be all Elberta. The entire 10,000 all go to one man, all set in one orchard, and I had to give him my guarantee that they are Elberta, and this is the reason I ordered them from you. I could have bought them a little cheaper, but I thought I'd run no risk if I bought from Bagby & Son."

M. C. Brown, Cowley County, Kans., 2-6-11: "Your trees are here and we unpacked same Saturday. I will say to you people that in handling trees I have never unpacked a finer lot of trees than the trees you sent me. The trees are fine and all up to the grade ordered, and no skinned trees. They are first-class in every respect and I want to thank you for the good packing and fine trees. You can count on me for a regular customer from now on."

William Rowson, Delaware Co., Ind., 4-10-11: "I want to tell you that

Testimonials

Corner of Grading Shed. Grading 2-year Apple. Open Door to Fumigating Room in Background

I received my order of peach trees and will say that I am well satisfied. You made me a present of ten Early Richmond Cherry trees and I want to thank you for them. All the trees are satisfactory. This was the third order that I have given you and I will say that your trees are good enough for me, so I will try to have another order for you later on."

Chas. Wright, Canyon Co., Idaho, 3-14-11: "Please find enclosed freight bill for refund. The trees are all O. K. and delivered in good condition."

Geo. W. Hall, Cassia, Co., Idaho, 4-27-11: The shipment of trees reached me in good condition, and I am well pleased with them. I thank you for the extra trees which were sent with the ones I ordered. There were 20 Spitzenberg, more than enough to fill the bill."

T. J. Priest, Scott Co., Ill., 4-22-11: "I beg leave to say that the trees arrived a few days ago in excellent condition, and proved to be of splendid size, and as I believe, true to name. I have them planted, and certainly thank you for your square deal."

Mancie Bollar, Alexandria, La., 3-7-11: "I am writing to let you know our trees have arrived and look to be in good condition. I never saw trees packed so nice and as fine a bunch of trees for the money. My dozen pear trees were worth one-half the money that the whole bill cost. Thanks for the gratis trees."

Henry Sorrell, Morgan Co., Ill., 6-2-11: "I received the trees ordered of you, in due time, and was well pleased with them. They are certainly a nice lot of stock, had nice roots, and all of them are growing as nicely as one could wish."

Jas. E. Finnell, Montezuma Co., Colo., 3-28-11: "My trees arrived last Thursday and were inspected Friday. They came in fine shape, and I am well pleased with same; a perfect lot, only two thrown out, and not enough to make any claim. I certainly can indorse for the New Haven Nurseries. The inspector said he never saw a nicer tree come to the Valley."

Showing What "Bagby-Grown" Trees Will Produce

Testimonials

Stephen Conroy, Delta Co., Colo., 4-17-11: "I received the trees and they stood the inspection all right.

Albert C. Thompson, Davis Co., Iowa, 3-11-10: "I received my order, March 9th, and trees all O. K. and in good condition. Everybody well pleased with the trees."

E. M. Enliss, Keokuk, Co., Iowa, Apr. 3rd, 1911: "Received trees March 31st, and am well pleased with them. They are a nice lot of trees, and I thank you for the extras.

W. R. Cooper, Labette Co., Kan., 4-17-11: "The trees and plants ordered of you came today and are all O. K. Thanks for the gratis trees. I think your way of packing trees the best I ever saw. Have ordered trees from several nurseries in my time, and they always come with a little burlap wrapped around the roots and the tops left exposed to be skinned in transit. If ever in need of any more stock in y ur line, will surely give you my order."

Clarence E. Elliott, Franklin Co., Kan., 4-10-11: "The trees which I ordered from you, and which were shipped by you, March 13th, and consigned to Riverside, New Mexico, arrived there April 3rd, and I herewith quote from Mr. Shemwell's letter regarding their condition on arrival: 'We had them inspected as we took them from the box. We found the trees in first-class condition, and the count correct. They are the finest peach and cherry trees that I have seen in a long time, and the other trees are a good average.'"

A. C. Darrows, Montgomery Co., Kan., 3-19-11: "The trees came through good time and are nice, better than I expected."

R. H. Paine, Barton Co., Mo., 3-15-11: "Trees received and opened up in fine shape. We are well pleased with them. We will want another order of yearling trees."

Agricultural College of Missouri

Experiment Station—Dept. of Entomology

Certificate of Inspection of Nursery Stock

Columbia, Mo., Aug. 1, 1912.

To Whom It May Concern:

This is to certify that on the 5th day of July, 1912, the stock of Trees, Shrubs and other plants of the New Haven Nurseries (J. Bagby & Sons Co.), grown in their Nurseries and Plant Establishments, at and in the vicinity of New Haven, Franklin County, Missouri, was examined and no indication of San Jose Scale, Brown Tail Moth, Peach Yellows, Rosette or other DANGEROUS insect or plant disease liable to be distributed or disseminated on fruit trees or other plants usually known as nursery stock.

This Certificate is good for one year from date of inspection.

LEONARD HASEMAN, Acting Entomologist.

LEONARD HASEMAN, Inspector.

Certificate of Inspection

WE mail this condensed list of prices to our friends and customers, and will ask that they favor us with their orders as early as practicable. The prices are for the goods at your station, if your order amounts to \$10 or more. We have now growing in our nurseries over two million fruit trees by actual count. All clean and healthy. Entomologist's certificate with each shipment. No San Jose Scale, Yellows or Rosette has been found in this county.

Shipments to Pacific Coast and Southern States from our frost-proof storage during winter months via Southern Routes.

We are growers of what we sell, having over 500 acres devoted exclusively to the nursery business. Many nurserymen are simply jobbers in the trade, and cannot sell stock with the same certainty of being true to name and free from disease.
